

Charlevoix Rayders Here Tomorrow, Pellston Downs Vikings, 7 to 6

Coach Smith Works For Scoring Punch

The Grayling High Vikings will meet the powerful Charlevoix Rayders at the City Park field here tomorrow afternoon to open the home stand of the 1950 gridiron season, after dropping their opener at Pellston last Friday, 7 to 6.

All week long Coach Bruce Smith has pushed his charges through an intensive practice to build up scoring punch. The Vikings outplayed the Pellston eleven last Friday with most of the contest taking place on the Pellston side of the 50 yard line but Grayling just didn't seem to have the co-ordinated offensive to score.

Grayling rolled up 9 first downs and a total of 150 yards gained against Pellston's 5 first downs and 138 yard total. Grayling intercepted two Pellston aerials while only one of Grayling's was intercepted. Grayling completed six passes with Pellston completing only three. The three, however provided the 7 point Pellston total and were made in three successive plays. Grayling was penalized seven times, for a total loss of 20 yards while Pellston lost 15 yards in one penalty.

The entire first quarter was played in the Pellston territory of the gridiron with the second quarter about even. With about two minutes to go to half time, Pellston completed two pass plays in a row to carry the ball 85 yards to a touchdown and then ran the play again for the point after touchdown to make the half-time score, Pellston 7, Grayling 0.

The entire third quarter play was between Pellstons 40 and 18 yard line with Grayling not having the final punch to cash in on several opportunities. In the final quarter Grayling put on a sustained 50 yard march with Fullback Bill Worden doing most of the work climaxing with a pass from Worden to his brother, halfback Duane Worden for the touchdown. An attempted line buck for the point after touchdown failed.

Leading ground gainer for Grayling was halfback Jim McClain, who in his first football game carried the ball 11 times for a gain of 35 yards. His offensive and defensive play stood out in the Viking backfield. Bill Worden carried the ball 9 times for a

Oil Search Moves North

Further northward movement of petroleum exploration is indicated in requests of oil companies and independent prospectors for the conservation department to schedule a record 194,221 acres for public oil and gas lease auction on October 5-6.

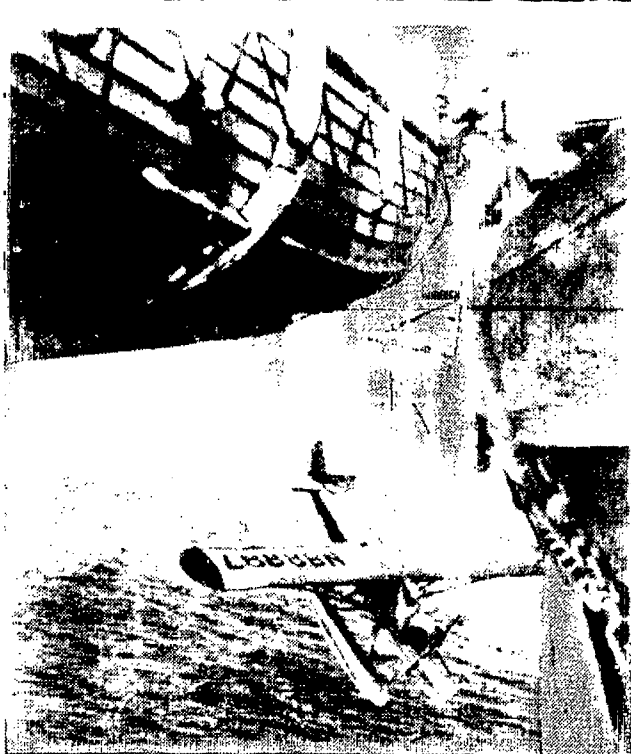

Top previous lease offering was 143,000 acres in May of last year. With the exception of 80 acres, the department's lands division says all acreage is the 25 counties represented is unproven or wildcat. The 30-acre parcel in Kalaska County's Garfield Township is adjacent to a producing gas well in the recently discovered Cannon Creek field.

Over 149,000 acres to be offered for development are in six counties, including Crawford with 39,000 acres, but also Otsego, Oscoda, Roscommon, Wexford and Grand Traverse. Most northern county listed is Charlevoix with nearly 6,000 acres. Most tracts are located in state forests and a few in national forests, where the state previously reserved the mineral rights.

A percentage of the acreage in these areas is withheld from leasing until such time as the lands now being offered may be considered proven, in accordance with the state's checker-boarding policy.

The conservation department recently reported that the fifth oil and gas well drilling permit ever issued for the Upper Peninsula was requested by independent driller Charles W. Jetter for the Mattson farm near Rudyard in Chippewa County. Over 16,000 permits have been issued by the state since they were required in 1927 and all except five have been drilling in the Lower Peninsula.

The Leroy Babbitts have been spending a few days in Grayling.

MYSTERY FLYER PICKED UP AT SEA - Seaplane which New Yorker William Jesse Newton landed beside the Polish liner Batory when the vessel was 75 miles off of New York harbor, east-bound, is slung aboard the ship. When the Batory reached Southampton, England, British authorities took Newton ashore to headquarters for questioning. The man claimed he made the landing at sea after the rented plane ran out of gas. The FBI was not satisfied with his story.

Kiwanis Club Notes

Crawford County Probate Judge Ray Clement was the speaker at the regular weekly meeting of the Kiwanis Club of Grayling held Monday evening at the Lone Pine Inn.

Judge Clement told the members of the varied subjects which are the authority and duty of the Probate Court. He added that many people thought that the sole duty of the court was the probating of the estates of deceased. Among the many other things handled by the court are all juvenile cases, crippled children, and many, many other cases among which the most important is the institutionalizing of deranged people.

Judge Clement spoke at length about the crowded conditions of the mental hospitals of the state and explained the proposed \$65 million bond issue which will be voted on in the November election. This bond issue was proposed by the State Legislature and it asks the people of Michigan to approve a bond issue which would allow the immediate expansion of the state mental and tuberculosis sanitariums to handle the ever increasing load. The bond issue would be paid back over a period of 30 years.

The Kiwanis Club of Grayling went on record as favoring the bond issue following the Michigan District of Kiwanis who in State Convention at Grand Rapids this week passed a resolution favoring the measure. The meeting was under the direction of second vice president Max Davenport as president Floyd Davis and first vice president Roy Milnes were in attendance at the State Convention.

Ford Magazine Article Features Fred Bear And Archery Company

Grayling scored again as the October issue of the Ford Times, which boasts of the largest circulation in the world for its type magazine, contained an archery article in which Fred Bear of Grayling and the Bear Archery Company was featured.

Complete with seven pictures in full color, the article describes a hunting trip of Bear's with company vice president "Knickerbocker" of Chicago into Northern Canada where Bear added a 1,500 pound moose to his kill list with a bow and arrow.

The article continues with a story of the increase in bow hunting all over the United States but more particularly in Michigan.

Two of the color pictures depicts

operations at the Bear Archery Company plant in Grayling while Bear is featured in two of the outdoors shots. One plant picture shows Norma Parkinson, 1949 Grayling Winter Sports Queen gluing feather on arrows.

The story is a definite plug for the Grayling company and certainly will help spread the name of this community. Extra copies of the magazine will soon be available at the Welsh Motor Sales here, the distributor of the Ford Times in Crawford County. The story was written by Mary Richards, associate editor of the Ford Times and the author of the AuSable Canoe Marathon story that appeared in the August issue of the magazine.

Why The Bear Hesitates

Possibly one good reason for hesitancy on Russia's part to attack this country directly is the unquestionable certainty that the Kremlin knows the extent of American industrial capacity far better than the average American. Following are reports of leaders in key industries:

Steel: "Today we have more capacity than all the rest of the world put together. Since the last war started, we have built as much new steel capacity as existed in Germany when that war began. This excess capacity is sufficient to meet the present demand." Clarence B. Randall, president of Inland Steel Co.

Rubber: "Today we have not one but two raw materials—natural and synthetic rubber. Before World War II we could turn 85,000 tons of rubber into finished products each month. Now we can process 110,000 tons a month. Before World War II our industry had about 150,000 employees. Today, we have over 200,000." Harry E. Humphreys, Jr., president of United States Rubber Co.

Oil: "There is no need for rationing, even if military demand expands substantially from present levels. Since the end of the last war, the petroleum industry has increased its capacity by more than 25 per cent." Dr. Robert E. Wilson, chairman of the board of the Standard Oil Co. (Indiana).

Electric Power: "Right now the electric utility industry has one-third more generating capacity than at the end of the last war, and by the end of 1953 will have three-quarters more." Louis V. Sutton, president of the Carolina Power & Light Co.

Textiles: "With cotton and synthetic-fiber textile production far ahead of last year there will be plenty of clothing available in the coming months. Total output of broad woven goods made of cotton is expected to exceed last year's production by 1,500,000,000 square

yards." Donald Comer, chairman of the board of Avondale Mills.

Machine Tools: "The industry has far larger capacity than at the start of the second war and could be expanded to meet twice the present demand." Charles J. Stilwell, president of Warner & Swasey Co.

Food: "There is absolutely no reason for panic buying of foods. We have a more abundant supply on hand than ever before." Morris Sayer, president of the Corn Products Refining Co.

In response to queries of officials charged with the task of insuring the nation's security, American industry has virtually said to the government, "Tell us what you want—we can fill the order."

THANK YOU

The fine support which was accorded me in the primary election is deeply appreciated.

I have endeavored to give all of the people of our district honest and efficient representation in the State Legislature and wish to assure you I will continue to give my best efforts at all times.

Rop. Emil Poltz.

Customers' Corner Every housewife who wants to get the most good food for her money should ask herself these questions about her food store:

Are prices low on all items every day in the week?

Is the price plainly marked on each item?

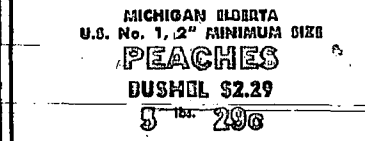

Is the quality high?

The answer should always be "yes" at A&P. If it isn't, we want to know about it.
